

TARTAN TITAN SOFTBALL

vol_1_Issue_1_

Quote of the week:

No ONE can do EVERYTHING, but EVERYONE can do SOMETHING

TITANS

As we get ready to start the 2018 softball season it is important to recognize the players and parents that have put in an extra effort during the off season. Their time and effort has put Tartan Softball on a path to having a GREAT season.

- The Booster club has been hard at work planning and coordinating many fundraising efforts for the season. They have also been putting together plans for team events and the end of season banquet. We need to give thanks to their efforts!
- The captains Marissa, Ava, and Madison, have done an excellent job getting the team prepped for the season. They have been putting together practices 2 days a week since January. WAY TO GO GIRLS.
- Many players participated in a fundraiser March 3-4 @ Roseville High School. They were given very little time to prepare and NO training. They showed up ready to work hard and gave a terrific effort while managing the game clocks and score books for a state basketball tournament. It should be noted that MOST players had very little experience with basketball before this weekend. They did an awesome job and got us invited back next year.
- We have had a few players step up and help out with other team tasks as well. Players have helped to move and organize team equipment, take down the batting cages (on a very cold fall day), and pick up EXTRA fundraising shifts. SHOUT OUT to everyone that has done these extra tasks, your dedication to Tartan Softball is noticed!
