

TARTAN TITAN SOFTBALL

vol_1_Issue_2_

Quote of the week:

Work harder than you think you did yesterday

TITANS

The Titans are off and running. We have finished the first two weeks of the season and believe it or not we are just one week away from regular season play. Weather permitting of course.

The players showed up the last two weeks full of energy and enthusiasm. The girls have demonstrated a willingness to learn, listen, and be pushed outside of their comfort zones.

We, the coaches, have seen a lot of positive attitudes and overall have been impressed with the work ethic of these players.

If the first two weeks are any indicator of how the season will go, we believe there will be lots of growth and development in our near future. With that we believe we will be finding success on the scoreboard as well.

We have just one more week of practice to prepare for our first conference game. There is still much to do, but we will be ready come April 3rd. GO TITANS!!
