Skip the trip with Well@Work video visits.

Get care during regular clinic hours without going into the clinic. You get the convenience of being seen from the comfort of home or work and the cost savings of using your Well@Work clinic.

What can I be seen for at a Well@Work video visit?

Get care for many of the same things you’d go to the clinic for. Make an appointment for things like:

- Sneezing and coughing
- Painful urination
- Anxiety and stress
- Follow-up from an earlier visit

How does it work?

1. Call to make a video visit appointment at 952-967-6857.
2. Make sure you have the right equipment for a video visit. Ask your HR team for instructions.
3. Visit the virtual waiting room at https://healthpartners.vsee.com/u/NSP when it’s time for your appointment.

Make an appointment.
Call 952-967-6857. Just ask to make a video visit appointment.
